

SUMMARY

Recent Computer Science Engineering graduate with strong communication, interpersonal, and organizational skills. Interested in Human Resources and talent acquisition, with the ability to coordinate, communicate effectively, and work collaboratively. Eager to learn and contribute to recruitment and employee engagement activities.

SKILLS

Soft Skills: Problem Solving, Communication, Adaptability, Time Management, Quick Learning
AI Tools: ChatGPT, Google AI Studio, Perplexity AI, Google Stitch, Claude
Languages: Python, SQL, JavaScript (Basics)
Web Technologies: HTML, CSS, Responsive Design
Frameworks: Tailwind CSS
Developer Tools: VS Code, Git, GitHub, IntelliJ IDEA
Design Tools: Figma, Wireframing, Prototyping, UI/UX Design, Canva

EDUCATION

Gnanamani College of Technology <i>B.E. Computer Science and Engineering / CGPA: 8.2</i>	2022 – 2026 <i>Namakkal, Tamil Nadu</i>
Sps Matric Hr Sec School <i>H.S.C / Percentage: 76 %</i>	2020 – 2022 <i>Salem, Tamil Nadu</i>
Sps Matric Hr Sec School <i>S.S.L.C. / Percentage: 88.8 %</i>	2019 – 2020 <i>Salem, Tamil Nadu</i>

PROJECTS

Copyright Risk Analyzer Pro - Developed an AI-powered web application to analyze multi-format content (text, images, video, audio) and detect potential copyright risks before publishing on social platforms. - Built an interactive frontend using React and Tailwind CSS with advanced UI features including drag-and-drop uploads, real-time analysis feedback, and animated dashboards using Framer Motion and Three.js. - Integrated AI-based analysis workflows for plagiarism detection, media recognition, and risk scoring, providing actionable suggestions and safe content recommendations for users.	<i>React, Tailwind CSS, Framer Motion, AI APIs</i>	Source
Personal Portfolio - Developed a responsive personal portfolio website to showcase projects, skills, and achievements. - Designed clean and user-friendly UI using HTML, CSS, and JavaScript with a focus on responsiveness. - Optimized layout and performance to ensure smooth user experience across devices.	<i>HTML, CSS, JavaScript, Tailwind CSS</i>	Source
Mood-Mate - Designed and developed MoodMate, a user-centric UI/UX application focused on mood tracking and emotional well-being, ensuring intuitive navigation and visually engaging interfaces. - Created wireframes, high-fidelity designs, and interactive prototypes while applying modern UI/UX principles such as consistency, accessibility, and user flow optimization. - Led the design process end-to-end, from user research and ideation to final prototyping, ensuring a seamless and user-friendly experience.	<i>HTML, CSS, JavaScript, Figma</i>	Source
ChatGPT Clone - Built a conversational AI-style web application with a real-time chat interface for user interaction. - Implemented dynamic prompt handling and response display to simulate AI-based conversations. - Designed a responsive and intuitive UI to enhance user experience and interaction flow.	<i>HTML, CSS, Prompt Handling Logic</i>	Source

EXPERIENCE

Web Developer Intern <i>OPTIMUS TECHNOCRATES (INDIA) Pvt Ltd</i>	Jul 2025 – Aug 2025 <i>Salem, Tamil Nadu</i>
- Completed a one-month internship in web development, gaining practical exposure to building responsive applications and understanding end-to-end development workflows. - Designed and developed web interfaces using HTML, CSS, and JavaScript, focusing on performance, usability, and modern UI practices. - Collaborated on project tasks, improving debugging, problem-solving, and communication skills.	

ACHIEVEMENTS

- 1st Prize – Paper Presentation, AVS College of Technology (2025): [Link](#)
- 3rd Prize – Paper Presentation, Knowledge Institute of Technology (2024): [Link](#)
- Python Course – Cybernaut (2024): [Link](#)

LANGUAGES

- Tamil (Native)
- Kanada
- English (Professional Proficiency)
